## Biography

Plain Jane Glory is a husband and wife duo from West Michigan specializing in a brand of Neo-Folk/Americana music that is honest, passionate, heartfelt, eclectic, and nostalgic all at once. They use a variety of instrumentation including: vocal harmonies, violin/fiddle, acoustic guitar, banjo, harmonica, and percussion to create a surprisingly big sound for a duo. Their live performances are full of unbridled and infectious energy and their genuine love of making music together is evident from the very first note. Their unique musical chemistry has helped them garner a devout fan base in their hometown of Muskegon and the surrounding areas. Their live performances often transform coffee houses, breweries, bars, and restaurants into an intimate party that culminates in infectious toe tapping, hand clapping, dancing, hooting and hollering, and all sorts of revelry.

Plain Jane Glory has been performing together since 2008 under various names. The two met while performing music in a Western themed play for the Red Cross and have been inseparable ever since. Plain Jane Glory has adopted a Springsteen-like work ethic, playing anywhere from 2-5 shows a week, sometimes more. They released their long-awaited and highly anticipated debut album "Someday When Things Are Good" in December of 2014. The album is highly autobiographical and takes listeners on an endearing journey of hardship and hope. The band released their second album "Grace of Hours" in June of 2016. Plain Jane Glory delivered a 16 song, Americana-tinged sophomore album with lyrics that contemplate mortality, grace, and love set to the backdrop of harmony-rich fiddles, banjos, guitars, and infectious melodies.
